To find your ancestors on their Alberta homesteads you must first understand why and how the land was surveyed and how records of land ownership were kept. The webinar will focus on land records in Alberta.

The webinar will include a demonstration of the databases where land records are indexed and give examples of the rich information contained in the records. You will be provided with information on how to acquire paper copies or digital images of your ancestors' land records. The webinar will conclude with generous time for questions and participant directed search of the indexes.

For Alberta Genealogical Society membership information [click here](#). You will self-register for the webinar using the registration link above. Payment will be made at time of registration by clicking on the Register and Pay button, which will take you to PayPal. You do **not** need a PayPal account as PayPal accepts credit card payments. Once you have registered and paid, a confirmation email will be sent which contains the meeting link for the webinar.

**Note to non-members:** as we are unable to assign two fees to the same event (member and non-member), after registering for \$10 you will be contacted regarding payment of the balance of the fee.
